

EVERY DROP OF WATER
IS LIFE OF THE PLANT.
SAVE WATER. SAVE LIFE.

ABOUT VIP

VIP Pipes is Central India's most trusted Pipes manufacturing brand. It has been incorporated to serve India's infrastructure transformation Vision 2025 of rapid infrastructural development, agricultural advancement, and delivering basic resources like water, gas, and drainage systems to every household in every location across the country.

We have been in the Industry for last 30 years. We have a wide network of 450 dealers across India and have more than 500 products in our portfolio. The company is known for manufacturing the best quality products in the market and believe in cultivating a long term relationship with our customers.

Company's comprehensive quality program is based on in-house research, continual product improvement, processes designed to meet customers' satisfaction. Company believes in innovating & new features to offer excellent products to its customers and to meet this we have a dedicated team of Engineers, Operators and skilled labourers, committed to a vision for India and its people.

OUR PRODUCT RANGE

PVC RIGID PIPES

VIP Rigid Pipe is used in agriculture fields to supply water from wells or rivers to crops. VIP Rigid pipe is specially tailored for laying underground water pipelines in agricultural fields. It can be joined without hassle using solvent cement. We also provide tapered mouth for better connectivity and faster installation. The pipes are tested in severe conditions to withstand critical weather like extreme sunlight, rains, and low temperature.

Product Range: 63mm - 200mm

Pressure: 2.5, 4, 6, 8, 10 Kgf

IS: 4985

PVC BOREWELL CASING PIPES

VIP Bore-Well Pipes are used for bringing out underground stream water via submersible pumps and are ideally suitable for long-term use in sandy and chemically aggressive soil. These Pipes are also used as slotted pipes for smooth water flow in bore-well.

Product Range: 110 mm to 225mm

Pressure: 4 & 6 Kgf

CONDUIT PIPES AND FITTINGS

PVC Conduit Pipe is one of our flagship products. It is known for its strength and is ideal to use in under wall and under ceiling laying of electrical wiring. We have a complete range of fittings that goes with conduit pipes. It comes in bundle packing of 75 - 100 pipes.

Product Range: 20mm – 63mm

Colors: Ivory, Grey, Black

CASING N CAPPING AND FITTINGS

PVC Casing N Capping is a wire ducting accessory used to enclose and protect unconcealed wiring. Colloquially, PVC Casing Capping is also known as Casing Patti, Cable Ducting, Cable Trunking. PVC Casing N Capping has a double lock mechanism which enables quick installations as well as maintenance of the wiring. It helps to keep the wiring intact, affixed to the wall.

Product Range: 20mm - 40mm

FLEXIBLE CORRUGATED PIPES

Flexible Single Wall Corrugated pipes are manufactured in many colours. These pipes are lightweight, flexible and possess more strength. They can bent on turnings and are thus fast replacing rigid bends. Have excellent flexibility with high ring stiffness for greater resistance to crushing & burying at considerable depths.

Product Range: 07mm – 50mm

Available Colours: White, Grey, Black

HDPE PIPES AND COILS

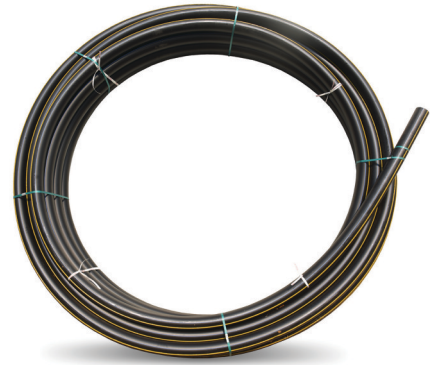

VIP HDPE water pipes are ideal for fulfilling water supply requirements. They are certified for human consumption with regard to delivering quality water and are a perfect substitute for GI/DI pipes. Made with Polyethylene, they have excellent SCGR (slow crack growth resistance) properties and superior hydrostatic strength with durability for long life expectancy. The lightweight and flexible design makes for faster and easier installations.

Product Range: 20mm - 400mm

Pressure Class: 2.5kgf - 16kgf

Note: Also available with copper trace ability

IS : 4984

ISO:4427

MDPE PIPES

MDPE (Medium Density Polyethylene Pipes) Pipes are used for the transportation of gas as well as for water all over the world due to its best technical and operational characteristics. Medium Density Polyethylene has a density between 0.926-0.940 g/cm³. It is weatherproof and has long service life due to its higher Stress Cracking Resistance and is less notch sensitive as compared to HDPE.

Product Range: 16mm - 400mm

Colours: Blue, Yellow, Black

HDPE SPRINKLER IRRIGATION SYSTEMS

VIP Sprinkler Irrigation Systems are used for irrigation of agricultural fields. They are laid over the ground to transport water from motor to the fields. The pipes are easy to join using K-P type attachments or C Clamp attachments. VIP offers complete sprinkler system covered in government agriculture subsidy. VIP Sprinkler pipes are tailor made, keeping farmers daily problems in mind. They have thicker GI coated clamps, have double collared rubber rings and have friction welded coupler and tails.

Product Range: Sprinkler Pipes 63 mm - 110 mm

Class: I & II **Type:** KP & C Type Clamp

IS: 17425

IS: 13592

SWR PIPES

VIP SWR Pipes had introduced a long term solution for drainage and sewerage applications. VIP SWR Pipes comes with rubber rings with high vacuum for smooth water flow and prevents water leakage. It enables fast and efficient removal of waste without blockage and leakage. Its high impact strength, chemical and corrosion resistance ensures long life and virtually zero maintenance. It is ideal for both residential & commercial premises of any height.

Product Range: 40mm - 200mm

Variant: Type 'A' and Type 'B'

*Perfection is not attainable.
But if we chase perfection, we can catch excellence*
